

LEATHER AND UPHOLSTERY

OmnAvia's premium cowhide and sheepskin leather are the product of time-honored craftsmanship combined with perfected modern manufacturing processes. Our high-quality, European-sourced leather is some of the best in the industry, featuring its soft, luxurious texture and elegant, tasteful look. Even the most experienced and prestigious designers will agree that our leather is a must-have in your private aircraft, yacht, or restored automobile.

OmnAvia's sheepskin hides are sourced from 100% Australian sheepskin stock. The hides are processed to develop a soft base hide for ease of tailoring and sewing, and are sheared to a uniform 1-inch hair length for consistency in touch and appearance from cover to cover

But not all seating surfaces call for leather. OmnAvia offers a wide range of woven textile fabrics that add the perfect compliment to the cabin's seating and panel surfaces. With a range of subtly textured wovens to sophisticated patterns that create a stunning yet elegant focal point, OmnAvia's portfolio of textiles in its Prestige Collection are the solution for taking you to the next level in cabin artistry.
